

Arvada Fire Protection District
Division of Fire Prevention
Fire Flow Test Information
City of Arvada

Fire flow test information may be obtained from the Division of Fire Prevention for the City of Arvada water system and the Valley Water District.

Fire flow tests are usually conducted with the City of Arvada and the Valley Water District within ten (10) working days of the request, unless weather conditions or scheduling conflicts arise between the Division of Fire Prevention or the City of Arvada Water Transmission and Distribution Division or the Valley Water District.

For fire flow test information within the Ralston Valley Water District service areas, please call: 303-424-9526.

For fire flow test information within the North Table Mountain Water service areas, please call: 303-279-2854.
