

Arvada Fire Protection District

Division of Fire Prevention

Plan Review Submittal Process for the City of Arvada

Architects, Developers, Contractors and Individuals submitting plans to be reviewed in the City of Arvada shall follow the information listed below:

- The Arvada Fire Protection District uses the 2003 International Fire Code with local amendments as adopted by the City Council of Arvada.
- Site, Building, Fire Protection and Special Hazard Plans shall be turned into the City of Arvada Building Department at 8101 Ralston Road.
- Fire Protection Contractors shall submit three (3) sets of plans with three (3) sets of manufacture specification/cut sheets, hydraulic calculations, battery calculations and voltage drops.
- Fire Sprinkler and Fire Alarm plans shall have a NICET III certification stamp.
- After review, the plans are returned to the City of Arvada Building for issuance of the permit.
- Inspections associated with the permit shall be called into the Division of Fire Prevention no later than 24 hours before the inspection is requested. The Division of Fire Prevention works on a 10 hour 4 day work week with alternating days off. Please refer to the plan review comment letter or approval stamp for the work schedule of the Fire Marshal assigned to your project.
