

Fire Flow Test Information City of Wheat Ridge

Fire flow test information may be obtained from the Life Safety Division for the Valley Water District.

Fire flow tests are usually conducted with the Valley Water District within ten (10) working days of the request, unless weather conditions or scheduling conflicts arise between the Life Safety Division and the Valley Water District.

For fire flow information in the Wheat Ridge Water District service areas please call: 303-424-2844.

For fire flow information in the North Table Mountain Water service area please call: 303-279-2854.

For fire flow information in the Consolidated Mutual Water service area please call: 303-238-0451.
